We are a family company that understands how important it is for our clients to live memorable stories in connection with equine art and nature of Costa Rica. We started this dream with the mission of being able to share a model of eco-responsible work; both with nature and with our beloved horses. Making it known in our day to day, in all our services, as well as in our classes and workshops our openness mentality towards horse handling practices with responsibility and respect towards these noble animals. This is how, at the beginning of 2017, we saw the beginning of this dream in Playa del Coco, Guanacaste; with our partners we began debating about the art of the equestrian world and of how we could offer this type of services in our area, and invite all tourists national and foreign to know the art of horsemanship; to connect with the nature of our country. Sharing the idea between colleagues and friends was the idea that formed, La Montaña, Equestrian Club in Playa del Coco, joining two families to create this wonderful place. We envision a club where there is a meeting point between equestrian art and the marvelous of the mountains and landscapes of Guanacaste; being unique in our services made to order and standing out for the experience and expertise of our select team.
