Selvatura Park is a nature and adventure ecological park located in Monteverde, Puntarenas, Costa Rica, with an area of over 850 acres of protected land, it is one of Monteverde's top attractions. The park offers a large variety of great activities all in the same place. This offers the benefit to the visitors of allowing them to enjoy the most of their time in Monteverde participating in our unique tours. We pride ourselves on providing world class service to all our visitors which has contributed to high customer satisfaction level and raving reviews online in venues such as TripAdvisor and others. At Selvatura Park we provide the best tours in Monteverde, we are specialists in the following activities: Canopy Tour Selvatura Park offers its unique Canopy Tour adventure! Our tour is the only zip-line tour built entirely inside the cloud forest. In this tour, visitors cross through the unique cloud forest canopy suspended over the forest while attached to high weight-capacity cables and using the specialized climbing gear. This provides wonderful experience and sensations only comparable to flying through the forest. This tour not only combines the thrill of one of Costa Rica's most safe and popular adventures but also provides a unique vantage point of the cloud forest which in the past was reserved only to certain scientists brave enough to climb up to the forest canopy. Tree Top Walkways

(Suspension Bridges)Selvatura Park's treetop walkways provide the best way to safely admire the cloud forest canopy at your own pace. Walking through our bridges, our visitors have the opportunity appreciate a wide variety of flora and fauna of Monteverde and observe the endemic biodiversity of the cloud forest canopy which is not found anywhere else in the world. The treetop walkways provide the best vantage point to observe the beauty of the cloud forest in all its levels. Natural History WalksAs a complement to the Treetop Walkways you can hire a Natural History Guide and transform your tour into a Natural History Walk which provides our visitors with a broader and more thorough experience of the marvels of the cloud forest, they are conducted by certified naturalist guides specialized in the area of Monteverde and Selvatura Park, which ensures that each walk will have a biological, ornithological and cultural approach of Monteverde and the cloud forest. Butterfly GardenSelvatura Park offers one of the largest butterfly gardens in the Americas, with an area of 300 feet long by 90 feet wide and 50 feet tall, a great dome structure covered by a special structure that helps control the temperature inside the garden, which enables our garden to host more than 30 different species of butterflies from different altitudes and climates found throughout Costa Rica. Reptile and Amphibian ExhibitionWe invite you to come to our reptile and amphibian exhibition, a tour in which you will be able to observe some of the most beautiful live specimens of lizards, snakes, and frogs gathered from all over Costa Rica and kept in optimum conditions inside customized natural terrariums which emulate the habitat of each species. This is a one-of-a-kind exhibition that provides a 360° view of each terrarium offering a greater, more natural viewing experience. Hummingbird GardenAt our hummingbird garden, our visitors will observe more than 14 different species of hummingbirds including a few species that are not commonly seen in the Pacific side of the continental division of Monteverde. At our Garden, the relaxing ambiance and with beautiful natural floral arrangements provide a perfect setting for nature photography lovers. Ecological Awareness CenterWe are happy to announce that we are working on a new and exciting project in which we will combine art, technology and our environmental knowledge to create a new sensorial experience to raise your awareness of the

importance of ecological conservation. Enjoy all our park's adventure and natural activities plus lunch and have the best cloud forest experience!
