Zipy has partnered with local community groups to initiate a beautiful partnership to coordinate activities in Quepos, Costa Rica for the local and expat senior community. The idea is for this community to have a space to come together to share experiences and love for this incredible place that they call home. The community center will be supported by donations and run by volunteers. The local community groups and Ask Zipy will coordinate activities to engage the elderly in a healthy, safe, and positive environment. It will be an entertaining, educational, and creative way for everyone to come together.
