The coffee tour consists of a wide explanation about the coffee process from the seedbed to the unique tasting experience of the most famous drink in the world. This process involves a lot of elements and its success depends on small details that are explained in depth in the tour. The experience begins entering the coffee plantation, a place where everything will be known regarding the coffee: its characteristics, its flowering and quality. In this unique site converge a large number of plants and animals that interact in the natural environment, there you will experience the daily life of the flora and fauna of Costa Rica that allows our coffee to develop as one of the best in the world. Within this ecosystem, it will also be known how the coffee residues already processed, return to the coffee plantation and converted into organic products that enrich the production process. Later, the ways in which the coffee left the farms and arrived at the factory, in the old times when the means of transportation that we know today did not exist. Once you feel expert in coffee plantations, a new adventure begins, in which you will be able to know and experience the internal process of the Costa Rican gold grains: starting from the measurement, going through the depulped and sorting, fermentation, washing, drying, storage, peeling, final classification, roasting and finally the

preparation for export. Finally all the magic that is generated in this process could be tasted during a five-way experience, the coffee tasting. All the centuries of Costa Rican experience in the production of coffee, you can take them to your home locked in the articles and products that you will find in our Cafe Souvenir Shop, there you will finish all the added value that comes from a small grain. And of course you can take our coffee to your country, so that whenever you want to feel in Costa Rica again, it is enough to prepare a cup of our delicious coffee.
