Rich Coast Diving Dive Costa Rica! Join Rich Coast Diving team on our daily 2 tank local dives. Explore the Pacific and swim amongst big schools of fish. All our dives are in small groups and guided by a PADI professional. We will explore 2 different dive sites and hopefully encounter sharks, rays or turtles. Local dive sites are surprising every day with big pelagics or small macro. Drinks, fruit and our famous sweet bread will make your dive day complete. Dive Costa Rica today!. extreme encounters

Besides daily local dives Rich Coast Diving also offer trips to the Catalina islands and the Bat islands. Due to weather conditions, each island group has its own season. From May until November we are more than happy to take you to the Bat islands. Encounter the bull sharks. One of the few places where you can observe these magnificent creatures. Due to the depth of 30m / 100ft, we do require that you have at least some experience. Therefore we ask you to do a local dive first and to show proof of at least an advanced certification. When the Bat islands stop we continue the season with the Catalina islands. This season runs from November till May. Here we admire the Giant Manta Rays at the cleaning stations. This dive is

suitable for open water divers however, there might be some strong currents.Dive
